

WHEN HIGH END AUDIO EXPERTS JOIN FORCES

People with great passion and knowledge continue the NADAC quest. Under the brand of Master Fidelity (MF) completely redesigned **NADAC D** and **NADAC C** will be officially launched at this year's High End Munich.

This premiere will be accompanied by the introduction of **ELLA MKIII** a revolutionary poweramp from Naiu Laboratories that will break boundaries in amplification.

Both join forces with speaker design legend Joachim Gerhard of Suesskind Audio introducing his brand new **KRONOS** reference speaker system.

With his Roon capable **SUMMUS** music streamer Robert Devcic of Euphony Audio provides the ideal digital source.

Last but not least Charles Brandt from Switzerland ensures the best possible connections between our components with his handmade cables.

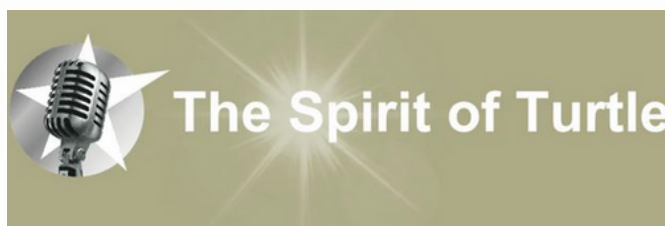

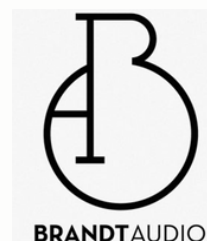

Internationally acclaimed balance engineer Bert van der Wolf (www.spiritofturtle.com) will entertain our visitors with a varied program of his high res recordings and guarantees for an unforgettable listening experience.

hifideluxe - Studio 3, Marriott Hotel München, Berliner Straße 93, 80805 München
